

It was early in December of last year (the Princess, suddenly informed of the secret attachment of her husband for a social actress, left her own apartments in the Palais at Fruges with a loaded revolver, and retired to the Paris forests, —) that the valet, stationed to guard the door with his life, and, entering the room, found the Prince and the actress in company.

With a sneering epithet of "Beast" for the Prince, she levelled the barrel at the woman and shot her. Then she broke down. The woman was taken from the scene, and new apartments in the city were later recovered.

Since then her love for her husband and the Prince, has been the same.

ALL THE NEWS THAT INTERESTS LABOR WACHES UP AN OLD AGE ENDOWMENTS OF \$1,000.

Central Labor Union Planning to Assist in Building Hospital for Victims of Unsanitary Non-Union Shops.

The members of the Boston lodge of the International Association of Machinists are able to face the future with a guarantee that when old age comes they will be able to call upon the Association's superannuation fund for a substantial sum.

When members ten years' continuous good standing reach the age of sixty-five they will receive \$50. Those of twenty years' standing will be richer by \$100 when their years count sixty-eight. All this comes without any increase in monthly dues. The fund was established at the last National Convention of the machinists. It will not be available until 1913, owing to the ten-year qualification.

With the exception of a local lodge to the English Amalgamated Society of Engineers, the Machinists' is the only Union in Boston which has in this way provided for the future of its members.

The election will take place two weeks later.

Employees of the New York, New Haven & Hartford railroad of New Haven are planning to organize a union of unions on the shores of the trade center in that city, which will be included in the list of unions, machinists, conductors, shipmen, blacksmiths and seamen. The mine owners of the Transvaal are saying now that the lack of an alien contract labor law such as governs the workmen in the United States and the complaints of the British government make it possible to import coolies from China. WOMEN WELCOME BOSTON AMERICAN

THEY EXPECT IT TO BE DEFENDER OF THE HOME AND THEIR RIGHTS.

Prominent women of Boston and vicinity heartily welcome the new BOSTON AMERICAN. They are unanimous in their approval of the work of the Hearst papers against whiskey and other enemies of the American home. Read what they say themselves.

MRS. MARY A. LIVERMORE, writer, lecturer and prominent temperance worker, says:

"Accept my greetings for the new paper and best wishes for its success. It lives up to its high promises."

LOUISE CHANDLER MOULTON, poet and writer, says:

"I cordially welcome the BOSTON AMERICAN here. For it runs on the same principles as Mr. Hearst's New York papers. It will give news of the day promptly, accurately and concisely."

ALICE STONE BLACKWELL, editor of the "NEW YORK JOURNAL," says:

"I have not been in the habit of seeing the 'NEW YORK JOURNAL,' and do not know just what sort of paper it is. Some of my friends swear by it, and some of them swear at it. Some of the articles that I have seen copied from it I have disliked, and others I have liked very much--especially its vigorous utterances on the labor question. My impression is that there is in Boston a large constituency which will be glad to have the opportunity of reading such a paper."

MRS. ELLA A. GLEASON, an officer of the W. C. T. U., says in her greeting:

"I can say that as county president of the W. C. T. U., we are glad to welcome to Boston an organ that aids us in our great cause--Temperance--all which helps to save numbers of young people from ruin."

KATE E. GRISWOLD, publisher and prominent business woman, writes:

"To the Management of Boston's Newest Newspaper: There is always room for one more newspaper in any city if its methods, policy, contents and aims are of the right sort, and too the liking of the people. Undoubtedly, it will be the pleasure of the management of the new BOSTON AMERICAN to demonstrate its ability to save numbers of young people from ruin."

MACHA MOORE AVERY, lecturer and student of sociology, says:

"The coming of the BOSTON AMERICAN has already stimulated the Boston newspapers along lines I am interested in--the education of the work-a-day world. I know that the Boston papers which stand for trade unionism are giving more space under the labor question. I expect the interest in the labor world to be stimulated by the coming of this new paper."

THE REVEREND MRS. A. BURT E., assistant pastor of the Every Church, says:

"My greetings to the new BOSTON AMERICAN. May it give to Boston as true American spirit, for with this spirit is fostered universal good."

Mrs. Burt E. has the distinction of being the only woman in Boston who craves from the pulpit.

MRS. T. T. TUCKER, one of Boston's most prominent women lecturers, says:

"I cordially welcome the BOSTON AMERICAN. I particularly endorse the standing which the management takes upon the trust question, its utter fearlessness in denouncing public frauds and its loyal championship of the country's laboring class."

"AMERICAN" GETS A WARM WELCOME

NEWSBOYS MAKE BIG SALES AND PUBLIC APPLAUDS FIRST NUMBER.

Never in the history of journalism, well posted and unabashed publishers device, was the launching of a newspaper attended with such unqualified evidence of success as that of **HEBERT'S BOSTON AMERICAN**, which made its maiden bow yesterday to the cultured, conservative citizens of the Athens of America, the residents of the New England States and provinces beyond the R. Lawrence.

Flourishing boldly out of the first day's story of the newspaper as an unprecedented compliment to its publisher was the interesting fact that John Lawrence Bates, the Republican Governor of the Commonwealth of Massachusetts, started the glass presses whirling, upon which the initial edition was printed.

Turning to its friends, after the little ceremony of the starting of the press had been concluded, with a luminous smile of his eye, the Chief Executive of the Bay State remarked:

"The people of Boston and New England generally were under the impression that this section of the country was visited by an earthquake early this morning. It was a mistake. The so-called seismic disturbance was not the harrowing late life of another of Congressmen Hebert's great newspapers."

HAD TO LEAVE OUT "ADS."

Not one of the 11 pages, it was impossible to print all the advertisements that were offered for insertion. In the case of the other news columns, for advertising columns contained some of the most interesting and important news that was printed—might not be slighted, because imperative to leave out some advertisements.

The circulating of the paper, carried out upon lines that had been carefully mapped out and prepared for the occasion, was accomplished without a hitch. Everywhere in the city of Boston and throughout the New England section the papers were snapped up with a velocity that amazed the news dealers. In Boston three thousand copies were sold by the delighted newsboys at 5 and 10 cents each. On the streets, in the hotel corridors, in the cars, everywhere **BOSTON AMERICAN** was to be seen in the hands of eager readers.

Messages of congratulations and good wishes for the success of the new newspaper poured in all day from various parts of the country and from every field of labor. State and city officials, the leading men of the labor world, ministers and prominent women sent their hearty felicitations.

The weather of the said day of the

blanketed and realized, were looked to the curb, awaiting the first appearance of their strong-armed arguers.

Bystanders, men, women and children, on hurried business, stayed their steps to marvel at these signs of impending "hostile."

Cheered the Start.

When the press started the excitement of the horde of waiting newsboys reached the starting point, and a great cheer, started by juvenile voices and taken up by hundreds of persons more mature, rang out through Boston's business section for the new Hebert newspaper.

In a minute after the press started the first customers of papers were in the delivery room. Here law-abiding citizens struggled with wrapping paper and rope, or abandoned the fresh-made bundles to the broad counters.

Beyond, clanking-laden carriers loaded their hundred-weight bundles and headed them manly on the wagons.

"Canada police!" shouted a nervous, very little man from New York, as he trotted, heavily laden, with the doorway.

"Canada police!" Now, ain't dat de lim it?" piped a slender specimen from Fleet street, "you say de gay news?"

"Aw, git wiser!" scoffed one of the "big" hands, who had travelled some. "Dat's New York talk for street corners."

And little Bright Eyes had learned that "Canada" meant after all nothing more foreign than Westbury Crossing or South Boston.

Lined in trucks the first papers off the press were hurried into wagons and carried off to the North Station, the largest railroad station in the country. These newspapers

made a quick connection for Providence and other points the south of Boston. Other wagons piled high with bundles, were whirled away to the North Station and sent headed for Lynn, Salem, Haverhill, Lowell, Portsmouth, Lawrence and hundreds of other cities and towns to the north.

So quickly did the customers snap up the papers that many dealers attempted to double the orders that they had previously given, but in order that all might have a fair show their wishes could not be complied with, and thousands of persons had to be satisfied with a glance at the paper covered by their more fortunate neighbor.

The first issue of the paper was held in rapturously by the purchaser as a valued souvenir.

All through the day this same programme continued until the sporting edition had been delivered. Long before the telegrams and telephone messages from various points in which the Boston American circulated had been received at the **AMERICAN** office. They all told the same story—all papers sold and could have dispensed of twice as many.

In front of the **AMERICAN**'s office on Summer street great crowds surged during the day to read the bulletin of the great news events of the day.

So successful was the first day's work of the newspaper that it was decided to increase the circulation of the paper.

It was decided to increase the circulation of the paper. It was decided to increase the circulation of the paper. It was decided to increase the circulation of the paper.

A STATEMENT We're Proud to Make

1000 retail druggists who are the leaders of the drug trade of the United States, and that means the world, and who are rated by Bradstreet and Dun at \$20,000,000 and whose retail business aggregates over \$70,000,000 annual sales, have agreed to give their name, financial backing and endorsement to the guarantee that **REXALL MUCU-TONE** will cure any disease or trouble arising from Catarrh or they will refund the money.

We are proud of our connection with the **Rexall Remedies**, particularly so of **Mucu-Tone**.

Why? Because a remedy must be something out of the ordinary that will get our backing. It's not all profit that leads us and our 1,000 associates into endorsing this remedy. It is our years of experience with medicines and our knowledge of them that teaches us that

REXALL MUCU-TONE

is a bona-fide discovery for the cure of all ailments due to Catarrhal affections. We know that it is not a cure-all, but a remedy built on scientific lines—not a patent medicine—each one of the 1,000 druggists knows its formula and its value. It has one great additional value besides curing constitutional Catarrh—that is as a system builder. No such tonic was ever before designed for the curing of inflammation of the mucous membrane—not can it be improved on in the present age.

Just stop and reason with yourself for one minute—we are doing business right here in your midst—could we afford to offer our name and endorsement to **Mucu-Tone** as we do if we did not know that it is an honest medicine? Can we afford to agree—as we hereby do—that we will refund you every penny you pay us for the medicine if it does not benefit you?

All we ask is your word and the empty bottle and we'll give your money back. No signed certificate. We believe the public, especially the sick, are honest—and we hope that they believe we are honest also. If they do, certainly every sick person who suffers from any of the following ailments should take advantage of our offer to-day.

SPRINGFIELD IN SPRL LOST IN NEW YORK

MISS MYERS LEFT BROTHER'S HOME LAST AUGUST AND HASN'T RETURNED.

Special by Boston American Enacted Wire.

NEW YORK, March 22.—The police of this city are asked to look for Miss Bertha Myers of Springfield, N. Y., who left her brother's home in Springfield, Mass., August 25, to come to this city to become the wife of Miss Myers's parents, Mr. and Mrs. Rosamond Myers, as a Kingston, N. Y. newspaper merchant.

Believed by the police to be Miss Myers, who is thirty-five years of age, in Pittsburgh, about seven years ago. Last spring she was employed in Rochester, where she again met Duane, and he asked her to marry him.

Miss Myers and Duane came to Pittsburgh in August, and after passing a week in the city, they went to visit Miss Myers's brother, Harry Myers. On leaving they were accompanied to the station by

the brother, who saw them aboard a New York train.

No connection was felt for several weeks afterward, though Miss Myers's failure to send an acknowledgment of her marriage was considered strange.

A few days before Thanksgiving Mrs. Myers received a telephone message purporting to be from Kingston, saying that she would be home in a week or two. Mrs. Myers now has doubts that it was her daughter who was speaking to her.

Duane said he was very well known in Niagara Falls and had relatives there. Photographs of Miss Myers and Duane were sent to the police of Niagara Falls, as well as to the police of Buffalo, N. Y. Duane having stated that he had two sisters, one of whom was in Buffalo, N. Y. The police were unable to furnish any information. Miss Myers's parents say that Duane was of prepossessing appearance and apparently well supplied with money.

BASEBALL RACING MEN LOOK TO BEAT LONGS

LOU CRIGER THE WORLD'S CHAMPION BEHIND THE BAT.

Willing Lou Criger of the Boston Americans, who bids fair to win some laurels this campaign, receiving such speedy honors as Diogenes, his Cy Young and Lefty Tassell, in beyond peradventure, the world's champion baseball catcher.

For talent, and inside knowledge of how to help a bulky batsman put down every Criger stands alone at present in a premier class.

This will be his fourth season with the Boston Americans, and on his fall the bats of the catching.

Revels in a Tough Job.
In some ways Lou's last job were never equalled. His work in going in at the diamond battle between the Sox and Pittsburgh, after backslapping in 50 of 140 regular championship games, showed his backbone.

This, too, in the face of a bunch of hostile criticism, of those who weakened on the Bostoners' renders, when Peter Charles took over. Lou had a funny day that opened the season. He came to the plate, and one of his many times to receive a "thing" needed to be given. No matter how much he tried, he could not get the ball in the basket. It persisted in jumping out. He was so perturbed that he threw the bat. He was howled at big Lou in various ways. He wanted to beat the camp, but the

more he tried, the worse matters got. One day he was hit with a ball. With a count of 2-0, Lou was out. With a count of 2-0, Lou was out.

Delivered the Goods Next Day.
Well, Lou had the first best, and there was change in the sun brothers. Despite nays knock Lou was there with the goods next day, and the weakness never. After that it was easy sailing, and the fourth day Lou's first start, when he caught the ball.

It was a fine day for the first and caught big Cy Young's first start, and Lou's first day. Lou's first day, and Lou's first day.

But in the end, when Lou started, he was born in Elyria, Ind., in 1872. In 1893 he joined the Boston Americans, and he was the greatest ever encouraged by the great Cy Young.

Won Favor at the Start.
Port Wayne, a Cleveland farm, sent him a contract in 1893-97. Criger's crack whip attracted the attention of the Boston Americans, who were looking for a catcher. Lou was the first to be taken, and he was the first to be taken.

HORSESHOE'S EYES TURN TO BENINGS

Successful Opening of the Racing Season Predicted for Thursday.

cores of the thoroughbred eagerly await the opening of the Eastern racing season. Benings on Thursday. Most of the stable will complete their training during the next few weeks are already on the ground.

All indications point to the Benings meeting proving a very successful curtain raiser to the better things to come, when the racing season shifts in the big Metropolitan track around New York.

Owing to the very severe winter and poor track conditions most of the Eastern horses at Benings are not as forward in their training as their owners could wish, and they will be at a disadvantage, for a short time at least, with the horses that have been campaigning on the Winter tracks and will find themselves into condition.

For this reason, the chances of Tribes being the favorite in the Benings handicap are seriously discussed among horsemen. Many of these consider Tribes will have been the most consistent handi-capper of the meeting at New Orleans, while Houlton has won several good races at that spring.

It is expected that the last early horse will begin operations the first day of the meeting, and that will be the principal members of the Metropolitan Turf Association will be on hand ready for business.

SCHOOL CLUB MIGHTY SECOND TEAMS

Baseball has grown so among the Boston schools second teams to work out of the high interscholastic club, are talked of this spring.

Local high school teams might achieve much better results on the diamond if the idea is adopted.

In cases where the plan has been tried, managers figure if second football teams are as good as in no time, why not the same about the use of baseball.

It is generally believed a second team would be pretty near as fast as the first, and, besides, diamond ball in schools is about as a part.

Forchester, High, thanks to Coach Sher-borne's foresight, intends to have a new league winner if a second class will do it. Just as soon this week as the weather allows he will have his powerful proteges out on the turf lined up in two teams.

Boston Latin, English High, Newton High, Melrose High and three of the others will probably be in line.

Perhaps a league of second teams may be started to give the national sport as popular.

NEW HARVARD STROKE TRIED WITH SUCCESS

First Spin of the Crews Shows Good Results of Colson's Work.

Harvard's first spin of the season on the Charles River gives evidence of the improvement which has resulted from Colson's efforts.

Witnessed by the graduate companies of rowing, including J. J. Storrow, H. C. Storrow, U. S. Storrow and "Red" H. Storrow, the two boats made short sprints before the boat house.

With a final adjustment to "the slides," Colson placed his men in working boats to row up river, and ran down to the Boston street bridge.

Slow and Rhythmic Beat.
Instead of a quick, snappy stroke, as last year the "beat" was slow and rhythmic. At no time did it pass more than twenty-two strokes to the minute. The big change was immediately evident, and handbooks who watched were greatly pleased.

In the breeze the first crew showed clearly superior.

Both crews, '03 and Smith's, '04, were tried at stroke in the first boat. Smith was much more experienced in this position, and this proved him in a favorable light.

Not Sure About Swain.
Some doubt is entertained as to whether Swain, '04, will be able to make the best showing, owing to the fact that he is but a year older than he was last year.

Under the order of the first crew was "Pete" Swain, '04, '05, '06, '07, '08, '09, '10, '11, '12, '13, '14, '15, '16, '17, '18, '19, '20, '21, '22, '23, '24, '25, '26, '27, '28, '29, '30, '31, '32, '33, '34, '35, '36, '37, '38, '39, '40, '41, '42, '43, '44, '45, '46, '47, '48, '49, '50, '51, '52, '53, '54, '55, '56, '57, '58, '59, '60, '61, '62, '63, '64, '65, '66, '67, '68, '69, '70, '71, '72, '73, '74, '75, '76, '77, '78, '79, '80, '81, '82, '83, '84, '85, '86, '87, '88, '89, '90, '91, '92, '93, '94, '95, '96, '97, '98, '99, '00, '01, '02, '03, '04, '05, '06, '07, '08, '09, '10, '11, '12, '13, '14, '15, '16, '17, '18, '19, '20, '21, '22, '23, '24, '25, '26, '27, '28, '29, '30, '31, '32, '33, '34, '35, '36, '37, '38, '39, '40, '41, '42, '43, '44, '45, '46, '47, '48, '49, '50, '51, '52, '53, '54, '55, '56, '57, '58, '59, '60, '61, '62, '63, '64, '65, '66, '67, '68, '69, '70, '71, '72, '73, '74, '75, '76, '77, '78, '79, '80, '81, '82, '83, '84, '85, '86, '87, '88, '89, '90, '91, '92, '93, '94, '95, '96, '97, '98, '99, '00, '01, '02, '03, '04, '05, '06, '07, '08, '09, '10, '11, '12, '13, '14, '15, '16, '17, '18, '19, '20, '21, '22, '23, '24, '25, '26, '27, '28, '29, '30, '31, '32, '33, '34, '35, '36, '37, '38, '39, '40, '41, '42, '43, '44, '45, '46, '47, '48, '49, '50, '51, '52, '53, '54, '55, '56, '57, '58, '59, '60, '61, '62, '63, '64, '65, '66, '67, '68, '69, '70, '71, '72, '73, '74, '75, '76, '77, '78, '79, '80, '81, '82, '83, '84, '85, '86, '87, '88, '89, '90, '91, '92, '93, '94, '95, '96, '97, '98, '99, '00, '01, '02, '03, '04, '05, '06, '07, '08, '09, '10, '11, '12, '13, '14, '15, '16, '17, '18, '19, '20, '21, '22, '23, '24, '25, '26, '27, '28, '29, '30, '31, '32, '33, '34, '35, '36, '37, '38, '39, '40, '41, '42, '43, '44, '45, '46, '47, '48, '49, '50, '51, '52, '53, '54, '55, '56, '57, '58, '59, '60, '61, '62, '63, '64, '65, '66, '67, '68, '69, '70, '71, '72, '73, '74, '75, '76, '77, '78, '79, '80, '81, '82, '83, '84, '85, '86, '87, '88, '89, '90, '91, '92, '93, '94, '95, '96, '97, '98, '99, '00, '01, '02, '03, '04, '05, '06, '07, '08, '09, '10, '11, '12, '13, '14, '15, '16, '17, '18, '19, '20, '2
